The EliteDesk 800 G1 J6D79UT is powered by a 3.3 GHz Intel Core i54590 QuadCore processor which will allow users to run multiple applications simultaneously. If you need more power, the CPU can be overclocked to 3.7 GHz. The 8GB of 1600 MHz PC312800 DDR3 SDRAM also helps the computer to run multiple applications simultaneously, as well as access frequentlyused files and programs. The current memory configuration is two 4GB modules with an additional two slots available for memory upgrades, making for a total of four DIMM slots. With all 4 DIMM slots in use, this system supports 32GB of RAM, or 8GB per slot. For longterm storage of your files, a 500GB 7200 rpm SATA hard drive offers quick access to your data. Whether you are listening to music, watching a movie, or playing a game, the integrated DTS Studio Sound outputs high definition audio and delivers higher fidelity than standard audio controllers.
